Projects

Personal Website [🔗](#)

- A personal site to host all my projects and contact info.
- A place where I can show off my engineering, art and design skills in one place.
- Hosted on an ubuntu droplet running apache2, set up entirely by myself.

Off Campus [🔗](#)

- An off campus housing platform startup I started with my friends.
- Lead front end developer
- A way to apply my developer skills at an enterprise level.

Professional Experience

01, Intern

- Learned about game development process and planning.
- Gained experience designing interfaces for games.
- Worked on programming a game.

2018

Miami, FL

Organizations

American Red Cross Association, Volunteer

- I helped organize their system for new volunteers and reaching out to volunteers about their work availability.

2018

Interests

Fitness, Nutrition, Cooking, Game Design, Personal Finance
